

What's happening at Milpara Korumburra's Community House?

It is that time again; we are planning for what we will be delivering next term. Milpara aims to meet the social and educational needs of our community. We want your input. We want to know what the important issues are for our community and for you. What information sessions, courses, supports and workshops can Milpara provide in the future? Do you have a course you would like to attend but the dates never suit? Are you sitting back waiting for a particular workshop to be offered again? If you let us know, we can use this information when planning dates for the following term so do not be shy. Alternatively, you may have a workshop or class you would be interested to run at Milpara and we would love to hear from you too. Call Belinda at Milpara on 56552524.

The South Gippsland Relay for life was held on the weekend at the Korumburra Showgrounds and what fabulous event it was. Congratulations to the organisers! It is a big job pulling everything together and you deserve a bit pat on the back for a job well done. The Milpara team enjoyed walking along with the 18 other teams. We were also very proud and impressed with the Milpara Singers who provided some great tunes to sing along too. The aim was to raise money with each donation, no matter how big or small, it all helps to fund Cancer Council's research, prevention, information and support services. We would also like to give a big THANKYOU to everyone who made donations.
